W. & O. R. R.

A BRILLIANT PROSPECT.

Now that that great line of communication and the Mississippi Rivers, and the waters of the Atlantic Ocean, -the Chesapeake and Obio Railroad is completed, and in successful operation, the attention of the people of Virginia, especially of this portion of the State, may be profitably turned to other railroads now in process of construction, which have somewhat the

No one of them, in our judgment claims as much consideration as the W. & O. R. R. This, when completed, according to the present design of its friends, will offer the shortest line of communication between the central portions of the valleys of the Mississippi, and the Ohio, and the Capital of the nation. This fact alone will make it a road of great importance. But in addition it will have the very great advantages of running through a country, along its whole line, ferrite in varied agricultural productions, and rich in the most highly estimated minerals. It will tap I limitable fields of bitminous coel -inexban-tible banks of iron ore, and whole counties of lime-stone rock; and it will bring the trade of all the country, that it

The people of Loudoun may well join the people, of the rest of the State, in congratulations upon the completion, of the great thoroughfare to which we alluded in the beginning of this article, but, at the same time, they are a hundred times more deeply laterested in the Washington and Ohio, than they can possibly be in the Chesapeake and Onio Railroad. This proposition we presume, will be self-evident to every human being in the county. They know that, as it advances to the western limit of the c unty, it must greatly add to the value of property along its line, increase its population, with men of capital, skill and energy, and enlarge the sphere and add to the variety of its industries. It will afford to the whole people of the county an easy, safe, and speedy access, for themselves, or their contritutions to its trade, to Alexaudria, Washington and Baltimore, and, as we have before remarked, it will link them closely to the great entside world, right where its pulses beat strongest and fullest, and passing beyond Loudun, into the Valley, and the passes of the Adeglistics, it will pour into its lap, an unlimited supply of those things, most needed here to-day to promote our most substantial interests-we mean coal, iron, and lime.

Is there a man, in Loudoup, who would not rejuce to know that he would live to see the first train of cars, dashing along the line of the W. & O. R. R., from the Ohio River to Alexandria, or Washington? Is there a man who would not join the shouts of the multitude, and feel his whole nature thrill with the booming of cannon-"the ear-pi-reing fife and the spire-string drum" - the fluttering of banners, so auspicious an event, as the empletion of this road, from its eastern, to its projected

This event will come to pass, some time in the future, as certairly, as the Chesapeake and Ohio road has been completed; and it de-

themselves to a full appreciation of the importance of this read to their noble little city, and tender all the assistance that they can, to Mr. with the Board of Public Works, to complete years. We think that it would be much wiser in them to invest their idle money in the boads of the W. & O. R., intended especially to build up their own town, than to send it thousands of miles away from home to enrich other commusities, and to swell the capital of other corporations, about which they know nothing and are nothing beyond the stated payments of their interest. The bonds of their road are as safe as any others, and pay as good an interest. Why not buy these bonds then and draw a treble interest from them - interest in gold at 7.30 per cent-interest in the increased value of their real property, and interest in the swelling

upon this road, so important to them, in many and the capital thus invested will not only pay them a sure and certain interest-and as good a per cent, as they can obtain anywhere else, but it will be spent right in their midst, in the astruction of the road, and come back to them for timber, corn. oats, hay, meat, and almost every thing they have to sell. They can determine to turn all their trade and travel upon it, and thus add materially to its emings, which carnings above its expenses, will be devoted to the work of its extension. All the freight and travel which wan be turned into this channel, from others, which they have heretofore sought as an outlet will be so much added to the means of the Company which can be applied to the work of is extension. The citizens of the county should think of this when they send their wheat off to Berlin and Harper's Ferry, right from Wider the shadow of the Depot of the W. & O.R. R., and right from alongside the line of its extension. They grumble about the slowbess of the progress of the work, and yet never and it the slightest help in any manner, form

and yet are deaf to its appeals for aid, and turn away from it the sources of its earnings to

We sincerely hope that as the spring opens, operations, upon the extension will be vigorouspushed forward. We hope that Mr. McKenzie's hands will be strengthened, and, that help and the iron horse will dash by Hamilton to and Produce. Pare dville by the 1st of May, and by the 1st | feb 4

It supersedes all other inhaling tubes and contrivances. It is equally adapted to the mouth and the nostril. It vaporizes and sprays. No steam required-no blowing necessary. The great obstacle to successful treatment by inhaiants, that the bottles and apparatus now used are complicated and inconvenient, is by this curious little instrument entirely overcome. It is as simple as a tin whistle, and may be carried in the pocket as handily as a penknife or a pair of seissors. No danger of breaking; no possibility of spilling; always ready, and may be used in the house or out of doors, lying down or sitting up, with the same case and facility as a cigarette, or a lady's smelling bottle. may religiously confide in his honor as a gentle-man, and confidently rely upon his skill as:

ORGANIC WEAKNESS.

Immediately cured and Full Vigor Restored. This distressing Affection—which renders life miserable and marriage impossible—is the penalty paid by the victims of improper indulgencies. Young persons are too apt to commit excesses from not being aware of the dreadful consequences that may ensue. Now, who that understands the subject will pretend to deny that understands the subject will pretend to deny that
the natural powers are lost sooner by those falling into improper habits than by the prudent?
Besides being deprived of the pleasure of healthy
offspring, the most serious and destructive symptoms of both body and mind arise. The system
becomes deranged, the Physical and Mental
Functions weakened. Loss of Procreative Power Nervous, Irritability, Dyspepsia, Palpitation of the Heart, Indigestion, Constitutional Debility, and Wasting of the Frame, Cough, Consump-tion, Decay and Death.

cured immediately. TAKE PARTICULAR NOTICE. Dr. J. addresses all those who have injured

themselves by improper indulgence and solitary habits, which ruir both body and mind, usuitting them for either business, study, society or marriage.
These are some of the sad and melancholy effects produced by the early habits of youth, viz: Weakness of the Back and Limbs, Pains in the Head, Dimness of Sight, Loss of muscular Power, Palpitation of the Heart, Dyspepsia, Nervous Irritability, Derangement of the Digestive Func-

tions, General Debility, Symtoms of Consump-MENTALLY .- The fearful effects on the mind are much to be dreaded. Loss of Memory, Confusion of Ideas, Depression of Spirits, Evil Forebodings, Aversion to Society, Self Distrust, Love of Solitude, Timidity, &c., are some of the evils

produced. Thousands of persons of all ages can now judge what is the cause of their declining health, losing their vigor, becoming weak, pale, nervous and emaciated, having a singular appearance about the eyes, cough and symptoms of Consumption.

YOUNG MEN Who have injured themselves by a certain practice, already described, a habit frequently learned from evil companions or at school, the effects of which are nightly felt, even when asleep, and if not cured, renders marriage impossible, and destroys both mind and body, should apply immediately. What a pity that a young man, the hope of his country, the pride of his parents, should be snatched from all prospects and enjoyment of

life by the consequence of deviating from the

path of nature, and indulging in pernicious habits. Such persons must, before comtemplating. MARRIAGE Reflect that a sound mind and body are th most necessary requisites to promote connubial happiness. Indeed, without these the journey through life becomes a weary pilgrimage, the prospect hourly darkens to the view, the mind becomes shadowed with despair, and filled with the melancholy reflection that the happiness of

another is biighted with our own. DISEASES OF IMPRUDENCE. When the misguided and imprudent votary of pleasure finds that he has imbibed the seeds of this painful disease, it too often happens that an ill-timed eense of shame or dread of discovery de-ters him from applying to those who, from edu-cation and respectability, can alone befriend him, delaying till the constitutional symptoms of the horrid disease makes their appearance, such as ulcerated sore throat, diseased nose, nocturnal pains in the head and limbs, dimness of sight, deafness, nodes on the shin bones and arms, blotches on the head, face and extremities, progressing with frightful rapidity, till at last the palate of the mouth or the bones of the nose fall in, and the victim of this awful disease becomes a horrid object of commisseration till death puts a period to his dreadful suffering, by sending him to that undiscovered country "from

whence no traveller returns."

It is a melancholy fact that thousands DIE victims to this terrible disease, through falling into the hands of ignorant or unskilful PRE-TENDERS, who, by the use of that deadly Poison, Mercury, &c., destroy the constitution, and incapable of curing, keep the unhappy sufferer month after month taking their noxious or injurious compounds, and instead of being re-stored to a renewal of Life, Vigor and Happiness in despair leaves him with ruined Health to sigh

over his galling disappointment. DR. JOHNSTON OFFICE No. 7, South FREDERICK STREET BALTIMORE, MD.
